Club Zoom Meeting Meeting Reminder

The Thursday, September 24, 2020 meeting of the Cary Amateur Radio Club will be via Zoom, beginning at 7:30PM. The first session, from 7:30PM – 8:10PM can be accessed with:

Meeting ID: [728 3153 5666](#) and Password: [m2gfbn](#)

A second session, if needed, will begin at 8:20PM and feature a program on Lithium-Ion Batteries by Jim Williams, the superiority of Li-ion and its dangers will be shown. Technical difficulties prevented Jim from making the presentation during our August, 2020 Zoom meeting.

Meeting ID: [752-2529-0018](#) Password: [u8esJQ](#)

Election of Club Officers

Club officers for the 2020-2021 year will be elected at our October meeting. Currently serving are: Larry Schroeder, President; Jim Williams, Treasurer; and Don Hurlbert, Secretary. All officers are anxious that any members willing to serve during the coming year will consider volunteering for a leadership job.

Ham Locator App

President Larry has found a neat app that displays the location of hams, by callsign, in any part of the country. Using URL <https://haminfo.tetranz.com/map>, hams can be found in your area or any destination you might visit. As a club, he suggested that we might be able to recruit new members from among amateurs that might not know of us. If given a try, it might uncover stations in your neighborhood of which you may not have been aware.
