Meeting number - 920 063 1641

Passcode - 150261

Our program, brought by Jim Williams (W4VCF), will feature “Why Wire Antennas Are Great” a discussion of easy to make wire antennas from scrap; Dipoles, Loops and Verticals; making a short antenna; resonant frequencies, harmonics, multi-banding, and how height above ground affects DX.

October is when we hold elections for our club officers. Anyone interested in running for office should contact Larry Schroeder via email at larryles55@gmail.com.

We will need someone to come forward for the position of Treasurer. Jim has done a great job, but is standing down and we need another person to take over. Please contact Larry if interested in the position. Jim will be more than glad to work with the new Treasurer on training and turnover of responsibilities.

Our annual Holiday Dinner takes place on the Thursday following Thanksgiving, or December 2, this year, so all members are asked to be prepared to decide upon a time and place so that reservations can be made.

Note: Our next Club Zoom meeting is scheduled for **January 22, 2022. Mark your calendars!**
