

CARC Meeting Notes – February 23, 2023

President Larry called the February 23, 2023 of CARC to order at 7:31pm, returning after two years to a meeting room in the White Plains UMC, with ten members attending. After a roll call, the Minutes of the January, 2023 Zoom meeting were read, with approval, and the Treasurer's Report revealed the balance in the Club's account

Larry announced the upcoming HamFests in Concord and Raleigh, where RARS would have its annual Convention at the Fairgrounds

Plans for the CARC SwapFest on July 15 were reviewed. Earl High volunteered to be the parking packer. The club is still looking for dealers to attend the SwapFest.

Larry made copies of the SwapFest Flyer available to the assembled members, urging that they post and distribute them where they would attract attendees.

The members had a long discussion about DXing, especially about Bouvet DXpedition slated for January, 2023

After a brief break, Larry presented a YouTube video, "DMR for Beginners." He announced that the next meeting, March 23 at the White Plains Methodist Church, would feature an FT8 live demonstration.

There being no further business to discuss, the February, 2023 meeting of the Cary Amateur Radio Club was adjourned.
